

TECHNICAL SUPPORT INFORMATION

1. GENERAL SPECIFICATIONS

- Version: 2.0
- Runtime: .NET 9.0/10.0
- Framework: WPF (Windows Presentation Foundation) & Avalonia
- Dependency: EasyLog.dll (Updated for XML support) and CryptoSoft.dll (Encryption system).

2. SYSTEM CONFIGURATION & PATHS

To ensure compatibility with server environments, all files are stored in the user's AppData directory:

- Configuration File: ...\\backup_jobs.json (Now supports unlimited entries)
- Global Settings: ...\\settings.json (Stores defined Business Software and Encryption Extensions)
- Logs Folder: ...\\Logs\\

3. ADVANCED LOGGING & MONITORING

- Format Selection: Users can toggle between JSON and XML formats via the settings.
- New Log Data: Each entry now tracks "Encryption Time" in milliseconds.
- Business Interruption: Any backup halted due to detected business software is documented in the log.

5. SUPPORT CONTACT

Annual Maintenance Contract: 12% of purchase price (SYNTEC revaluation). Support Hours: 5/7, 8am-5pm.
